

Project Title: Design the ideal dorm room for two

Project Partner: Prof. Deb Wood

Email: deborah.wood@northwestern.edu

Organization: Northwestern University

Project description:

Some of Northwestern's newest dorms are said to resemble luxury hotel rooms, but there's always room for improvement. This project would involve researching the perfect placement of furnishings, lighting, colors, and windows (ideal exposure), as well as other design considerations to make your temporary residence a homey haven.

Existing solutions:

Other DTC2 teams have tackled this project and examples can be shared.

Access to users:

Easy access to undergraduate students
